

Energy Isolation – Lockout/Tagout Program – Equipment Inventory & EI-LOTO Audit/ Tracking Form

Department Lis

Instructions: This form may be used by Departments / DSCs to inventory all their equipment requiring an Energy Isolation – LOTO procedure. Prior to conducting Energy Isolation activities on equipment, Cal/OSHA requires that an initial survey of all energy sources to the equipment must be conducted. This must be done by physical inspection, possibly in combination with a study of drawings and equipment manuals. This survey may be conducted by a "Qualified Person" in a department, Facilities Maintenance, EH&S, or a Contractor who will be working on the equipment, and documented on Attachment 2, Steps 1 - 3. Procedures are developed by completing Attachment 2 Steps 4 and 5, and then applying standard energy isolation process steps specific to equipment. To track equipment in the program, enter equipment inventory and energy supply data as shown. Note the date when the Attachment 2 procedure was completed and include initials of the Qualified Person who completed the procedure. Note date when the Attachment 2 procedure was audited by a Qualified Person and include initials of auditor. All procedures must be audited at least annually by law.
