

## Environmental Health Program Fact Sheet

### Functional Role

---

The Environmental Health Program provides oversight and support for areas of public health significance on campus properties including food facilities, pools, drinking water lines, integrated pest management, and temporary food events. Staff routinely inspects campus facilities and approves construction plans for compliance with University of California (UC), campus and regulatory requirement (specifically California Health and Safety code requirements).

### Performance Objectives

---

- Working with staff implement and enforce the Campus Food Safety Policy.
- Serve as Campus Public Health official.
- Ensure campus food facilities comply with the Retail Food Code.
- Make sure UCM-owned swimming pools meet all Health & Safety and Building Code requirements.
- Respond to complaints of Foodborne/Waterborne concerns and illness.

### Program Elements

---

- Food Safety
- Temporary Food Events
- Swimming Pools
- Drinking Water
